Projects

Masterzone

In this project, a service is provided to develop businesses, allowing a person to run their business online.

Salary Management System

In this project, you can manage salaries and attendance. It is primarily designed for companies, schools, and institutes where check-in and check-out need to be tracked.

Feepe

This project is basically for institutes, course providers, and training centers to help them manage their students effectively.

Manifest Tattoo Studio

This is just a portfolio to help grow the business. It doesn't have any backend and was a freelance project.

LifeCamp

I am currently working on my own project with a frontend in React, backend in ASP.NET Core, and a SQL Server database. This project is for hospitals and NGOs that provide camps.
